Notable features:

Tire retread establishment located at rear of 1015-1017 W. Baltimore Street (no numbers). This use is unsightly and could be removed to benefit the area.

Houses 1014-1024 seem in fair condition; could be rehabilitated. They are not architecturally important, but are pleasant enough. Houses 1026-1032 are older but their condition is poor.

Environmental context:

Number 1036 is vacant. The retread place is discussed above and across-street is a machine company in among garages and many vacancies; general environment is not conducive to residential. This area could be considered for parking and service for Baltimore Street.
